CYBERSECURITY
ASSOCIATION OF MARYLAND, INC.

CONNECT WITH CAMI TO PROTECT YOUR BUSINESS

Chris Sachse
CEO & Co-Founder of Think|Stack
Chairperson, Cybersecurity Association of Maryland, Inc. (CAMI)

As the risks and threats of cyber attacks become more significant and the costs of data breaches increase, top business leaders recognize the importance of cybersecurity in protecting their organizations and their customers.

Cybersecurity has become a critical issue for businesses of all sizes, and we've all witnessed how a failure to address it can have serious consequences, such as loss of customer trust, financial loss, and damage to the company's reputation. Additionally, we know that cybersecurity can be confusing or complex due to the constantly evolving nature of cyber threats and the various aspects involved in implementing cybersecurity measures.

Our Cybersecurity Association of Maryland, Inc. (CAMI) companies exist so that you don't have to chart your security journey alone.

CAMI is here to help your business get straightforward answers to protect your business: what actions can you implement now? And difficult questions: what plans do you need to have in place In the event of a cyber attack? What sort of cybersecurity provider is the best fit for your business needs?

This Guide is one of many ways CAMI exists to help you identify and connect with the right cybersecurity companies. We are the Midatlantic region's nationally unique resource for a cyber-safe community—consider us your local catalyst for effective cybersecurity solutions. Visit our website at www.MDcyber.com and click "Find a Cybersecurity Provider" or reach out to us directly (info@MDcyber.com or 443-853-1970) to be put in touch with the resources, referrals, and connections to keep your business thriving.

By investing in cybersecurity, you can not only protect yourself and your customers but also gain a competitive edge in today's digital marketplace.

You can't afford to let the overwhelming questions surrounding cybersecurity preparedness keep your business from protecting your data and operations. Reach out to us today to speak with our cyber companies who are ready and willing to Connect to Protect your business.

Chris Sachse

Providing over 5.7 million SF of space to Maryland's cybersecurity companies, from startups to the nation's largest DoD contractors and the USG.

Managed Services

What We Do

We complement your program and available tools & resources with customized levels of continuous monitoring and expert management to ensure your investments are operating at peak efficiency and efficacy to minimize threat exposure and exploitation.

DEVICE MANAGEMENT
Alleviate the burden on key staff for configuration requests, software upgrades and new feature adoption.

SOC SERVICES
Gain real-time insights into the event data generated by your security architecture and rely on the experts to correlate and triage possible incidents.

MANAGED DETECTION & RESPONSE (MDR)
Take advantage of new detection technology with a team of experts who will configure, tune and hunt threats in your environment to minimize detection time.

VULNERABILITY MANAGEMENT
Shine a spotlight on new and existing vulnerabilities in your environment. Leverage our team of experts to summarize, prioritize, and help you minimize exposure.

Whiteford Law	www.wtplaw.com	(410) 347-8700	cyberinfo@wtplaw.com	Legal
Whiteford, Taylor & Preston knows the technology and the law of cybersecurity, data privacy, e-commerce and cyber insurance. We represent both cybersecurity companies and the huge range of companies – in all industries – that will be liable if they don't protect the data they collect.				
Windley Management Group, LLC	www.windleymanagementgroup.com	(301)529-3100	dwindley@windleymanagementgroup.com	Advisory and Consulting
We have over 40 years of experience and expertise in Federal and Commercial Business Strategy and Development. We have owned and managed startups, orchestrated acquisitions, managed both small and large Federal and Commercial projects, rebranded businesses and helped many business owners achieve and exceed their business, financial and personal goals.				

CHAPTER THREE

MID-ATLANTIC CYBERSECURITY

2023 WORKFORCE & EDUCATION DIRECTORY

Below is a list of cybersecurity education and training resources. For more detailed information on these and other resources, visit MDcyber.com.

COMPANY NAME	WEBSITE	PHONE	EMAIL
Baltimore Cyber	baltimorecyberrange.com	(410) 240-8420	gcohen@baltimorecyberrange.com
Baltimore Cyber is the first world-wide implementation of a cybersecurity range specifically designed for workforce development. We have developed in person and virtual range training for entry level, journeyman and expert individuals. Our training is constantly updated to address real time threats. These updates are provided by employers in the Maryland region.			
CCBC Cybersecurity Institute	www.ccbcmd.edu/cyber	(443) 840-4526	eroberts@ccbcmd.edu
The CCBC Cybersecurity Institute – a designated Center of Academic Excellence by NSA and DHS – offers a range of degree and industry certification programs to prepare individuals for employment and careers in Cybersecurity. The Digital Forensics program is designated as a National Center of Digital Forensics Academic Excellence (CDFAE). CCBC is further committed to helping Veterans and active military members expand their education and training opportunities.			
Comtech CyberStronger	https://www.cyberstronger.com/	(443) 510-5836	christopher.will@comtech.com
Comtech's CyberStronger workforce development solutions solve your cyber talent pipeline shortage. We identify your organization's hidden talent and develop qualified cyber analysts for your Security Operations Center (SOC) and other job roles. A trusted delivery partner to the federal government and universities for over a decade, our products include our Cyber Reskilling Academy Bootcamps, training courses, over 400 hands-on cyber training labs, and performance-based CYBRScore® Skills Assessments mapped to NIST/NICE job roles. We also offer Security Awareness training for all employees, ransomware protection solutions, custom cyber ranges, and managed services.			
Howard Community College	www.howardcc.edu	(443) 518-4717	adm-adv@howardcc.edu
Howard Community College is designated by NSA and Department of Homeland Security as a National Center of Academic Excellence in Cybersecurity Defense, and a National Center of Digital Forensics Academic Excellence by the DoD Cyber Crime Center. With state-of-the-art technology, hands-on instruction, and industry partnerships, HCC helps students find pathways to success.			
ISSA Central Maryland Chapter	www.issa-centralmd.org	(410) 772-5219	President@issa-centralmd.org
The only Information Systems Security Association (ISSA) Chapter in Maryland. ISSA is a not-for-profit, international organization of IS/IT professionals and practitioners providing educational forums, publications, and peer interaction opportunities that enhance the knowledge, skill and professional growth of its members. Our Chapter has been part of the local security ecosystem for over 30 years.			
Per Scholas Baltimore	www.perscholas.org/baltimore	(202) 734-8686	baltimore@perscholas.org
Per Scholas is a national organization that has been advancing economic mobility for more than 25 years. Through rigorous training, professional development, and robust employer connections, we prepare individuals traditionally underrepresented in technology for high-growth careers in the industry. We partner with leading employers to build more diverse talent pools, directly connecting our graduates to new career opportunities with leading employers, from Fortune 500 companies to innovative startups. More than 20,000 graduates have launched successful careers in tech to date through our no-cost technical training. Our mission is to advance economic equity through rigorous training for tech careers and to connect skilled talent to leading businesses.			

COMPANY NAME	WEBSITE	PHONE	EMAIL
Phoenix TS		(240) 667-7760	promo@PhoenixTS.com
Phoenix TS is celebrating 25 Years of consistently delivering excellent training results at an affordable price point. We offer cybersecurity, IT and professional development courses featuring Security+, CEH, CMMC, CASP+, CISSP, PMP, ITIL, AWS, Azure and other top industry recognized certifications. Call us today at 240-667-7757 or visit https://phoenixts.com/			
Towson University	www.towson.edu/provost/initiatives/center-cybersecurity	(410) 704-4560	btaylor@towson.edu
Towson University has demonstrated excellence in cybersecurity education and research and provides national and global leadership in this critical area. TU is also home to The Center for Interdisciplinary & Innovative Cybersecurity, which implements novel solutions to current and future cybersecurity research and education challenges. The center engages the government, industry, academia, and the Baltimore region community on cybersecurity issues, and transfers results into deployable technologies.			
TrainACE	www.trainace.com	(301) 220-2802	info@trainace.com
TrainACE is a professional computer training organization for ambitious professionals looking to progress within the IT and cybersecurity field. We provide hands-on training courses to teach the skills and knowledge required for today's demanding and evolving IT and cyber security industries.			
UMBC Training Centers	www.umbctraining.com	(443) 692-6600	info@umbctraining.com
UMBC Training Centers is a premier provider of professional and technical training for individuals and organizations. Training Centers is a part of the University of Maryland, Baltimore County (UMBC) and offers comprehensive cybersecurity training programs to help individuals to enter the cyber workforce and to help support the professional development and certification needs of cyber professionals.			
University of Maryland Carey School of Law	www.law.umaryland.edu/Prospective-Students/MSL-Online/	(410) 449-7506	onlinemsl@law.umaryland.edu
Maryland Carey Law offers two online Master's programs: a Master of Science in Cybersecurity Law and a Master of Science in Homeland Security and Crisis Management Law. These programs are designed for professionals who want to gain a competitive advantage in their career with an in-depth understanding of how the law intersects with the technical, scientific, or administrative facets of their chosen field.			
University of Maryland Center for Health and Homeland Security	www.mdchhs.com	(301) 738-6245	mrauschecker@law.umaryland.edu
Cybersecurity is not just about technology. Organizations must also consider numerous laws, regulations, and policies if they want to implement effective cybersecurity strategies. CHHS helps clients navigate the complex cybersecurity landscape through education, planning, training and exercises.			
University of Maryland Global College	www.umgc.edu	(301) 9857182	pg.wist@umgc.edu
University of Maryland Global Campus was founded in 1947 to make respected, state university education accessible to working adults and servicemembers. Back then, that meant sending professors overseas to post-war Europe. Today, it means offering affordable online programs and student services to help you advance your education and plan for your next success, no matter where life takes you - even under the most challenging circumstances. You're here and why we've grown to become the largest online public university in the nation. Don't wait - you're ready to succeed again.			
University of Maryland, College Park	www.magic.umd.edu	(301) 405-4643	cyberpartner@umiacs.umd.edu
The Maryland Global Initiative for Cybersecurity (MaGIC) promotes and coordinates efforts across the University of Maryland (UMD) to expand its cyber education, research, and development activities.			
University System of Maryland	www.usmd.edu	(410) 576-5742	webnotes@usmd.edu
The University System of Maryland (USM) represents 12 institutions, 2 regionals centers and more than 170,000 undergraduate and graduate students throughout the State of Maryland. We generate talent, conduct more than $1.4 billion in sponsored research, provide all levels of industry-driven professional training and help commercialize technology and invest in new startups across all major industry sectors.
