What our Sponsors Are Saying...

“CAMI is a true business asset and major contributor to Edwards Performance Solutions’ success in the cybersecurity market. CAMI’s events have introduced us to several other companies – forming partnerships that provide exceptionally powerful combined cybersecurity solutions. One such partnership led to the acquisition of Evolved Cyber Solutions. We have also been introduced to several customers through CAMI’s CxO Breakfast Meetings; with the connections leading to significant revenue increases and the expansion of our team through the hiring of new cybersecurity staff and interns.

CAMI’s benefit to Maryland is evident based on the rapid growth of our cybersecurity solutions.”

Gina Abate,
President & CEO,
Edwards Performance Solutions

“Our involvement in CAMI has facilitated our transition from a managed IT services provider to a managed security services provider, enabling us to hire additional engineers to support this line of business. Our participation in CAMI events has allowed us to tap the resources of local cyber technology companies we never would have been aware of without CAMI. Access to CAMI member executives has enabled us to identify a number of partners for a security awareness service we have developed, which has become a promising nationwide strategic initiative for our firm. This exposure already has resulted in our first channel partnership with a fellow CAMI member company and new business for both organizations.”

Michael Cohn
CEO
Summit Business Technologies

“CAMI provided our Baltimore-based startup with a platform to brand itself and communicate with buyers that simply did not exist before CAMI itself and communicate with buyers that simply did not exist before CAMI came along. Without CAMI getting Point3 off the ground would have been prohibitively complex. Now, CAMI is working to bring a pilot program using our unique cyber training program to Baltimore City. The services they provide small business owners throughout Maryland state is critically valuable. Point3 is proud to say that it has customers who are part of the CAMI network, and are customers of others in the CAMI network.”

Evan Dornbush
Co-Founder & CEO
Point3 Security
